

# Session Platform Information

North Central Teachers' Convention Association's Convention 2021 is going to be virtual. NCTCA has a provider, LOUDCO-HD, who will operate each session and assist presenters as they navigate each platform.

Your session can be hosted in two different ways:

1. **Vimeo Pre-recorded Session** - It allows the speaker flexibility of time to record at any point prior to Convention. The platform is a great, direct method of delivery and lends itself well to the 1 hour session. These sessions will populate a video library available to our teachers on demand through Sched. You will be contacted by a LOUDCO-HD representative who will facilitate the recording for you. Please note if you choose this format we will need your presentation recorded no later than January 15th, 2021.
2. **Zoom Video Conferencing (Live)** - This platform will be live and presented at a scheduled time. NCTCA will schedule the date and time of the session, and the speaker must be available at that time and date. Interactions between presenter and attendees can occur. A LOUDCO-HD representative will operate and manage the Zoom video conference on your behalf.
